

What is LinxUs Air?

LinxUs Air provides immediate fault notifications through Iridium SatCom and automatically emails them to your designee(s) while the aircraft is airborne or taxiing, and when away from your ground-based Wi-Fi network. LinxUs Air provides hands-free 24/7 worldwide signal coverage.

In addition, LINXUS provides specific maintenance troubleshooting answers to your designee(s) and our Product Support Team to get you back in the air as quickly as possible should an issue arise. LinxUs leverages the diagnostics computer and wireless capabilities on Cessna Citations to ensure the best possible support for our customers.

How do I know if my Citation M2 is capable of LinxUs Air?

- Cessna Citation Jets with Garmin G3000/G5000 Avionics and the Garmin GSR56 (Satellite Receiver) installed are eligible for LinxUs Air. Aircraft with an optional installed GSR56 Iridium Transceiver are capable of LinxUs Air.
- M2 aircraft that were factory equipped will have Factory Kit code 675 on the aircraft equipment list found in the flight manual (GSR56 part number 011-02268-01).

What's the Offer?

Textron Aviation Customer Service offers, one-time per aircraft, a 2-year complimentary LinxUs Air subscription. During this complimentary period, Textron Aviation covers all charges associated with fault notification transmittals, so you can realize the benefits of LinxUs Air with no out of pocket expense.

Prior to the 2-year complimentary subscription expiration, you will be given the opportunity to renew your LinxUs Air subscription at a competitively low annual price.

How do I sign up?

1. Send an email to golinux@txav.com requesting enrollment in the free 2-year LinxUs Air service.
 - Please include the **Aircraft serial number**, and the **emails** of those contacts you would like to receive fault notifications from LinxUs.
2. If, as the aircraft owner or operator, your aircraft is found to be eligible, you will receive an enrollment confirmation usually within 24 hours with instructions to complete activation on your aircraft.

We are honored that you have chosen us to fill your product needs. Please visit www.golinux.com for additional information. If you have any questions or need assistance, please feel free to contact **LinxUs Support** at 316.676.3018 (1-844-4LINUX) or GoLinxUs@txtav.com.
