TITLE

ELECTRICAL POWER JUNCTION BOX TE04 TEST SET SUPPLEMENTAL INSTRUCTIONS

TO

Cessna Single Engine Service Stations

MODELS AFFECTED

All 172R, 172S, 182S, 182T, T182T, 206H and T206H Airplanes

DISCUSSION

Lamar Technologies Corporation has developed Supplemental Instructions to assist in the operation of the TE04 Test Set in troubleshooting malfunctions or failures of the power junction box. These instructions have been printed on a laminated card designed to be stored inside the TE04 Test Set with the existing operating instructions.

A copy of this Service Newsletter and the part number LI-008 Supplemental Instructions card have been sent to Single Engine Service Stations.

If additional copies of the LI-008 Supplemental Instructions are required, please contact Lamar Technologies Corporation, 14900 40th Ave. N.E., Marysville, WA 98271, USA. Telephone: 360-651-6666, Fax: 360-651-6677.
