18030000 thru 18053202
185-0001 thru 185-1599
18501600 thru 18504328

PURPOSE: A rectangular opening in the aft tailcone assembly has been designed for the 180/185 series aircraft to improve access to the horizontal stabilizer jackcrews for lubrication and maintenance. This improvement is effective on production Model 185 aircraft beginning at Serial 18504329. A Service Kit has been developed which will make the above installation available for earlier Model 180/185 aircraft.

COMPLIANCE: The above improvement is optional. Owners/Operators who desire additional tailcone access should order Service Kit (SK185-27) to facilitate installation of the opening for the aircraft serials listed above.

MAN-HOURS REQUIRED: Estimated time for installation of the above kit is 2.2 man-hours.

MATERIAL: Parts are available through the Cessna Supply Division as indicated below:
