SE78-10
(Supplement #1)

SUBJECT: FUEL TANK INSPECTION

Service Letter SE78-10 covered an inspection program for early (construction BTC-39) Goodyear Fuel Tanks used in Model 180 thru 188 and 205 thru 210 series aircraft.

Whenever fuel tank replacement is required in compliance with this Service Letter, it is important that the aircraft also be checked for applicability against (2) earlier Service Letters -- SE75-7 and SE75-7 Supplement #1.

These Service Letters (SE75-7 and SE75-7 Supplement #1) concerned a reduction in the fuel tank capacity on fuel tanks shipped from Cessna since July 10, 1973, and, therefore, may require re-placarding of the aircraft fuel system.
