SUBJECT: IMPROVED FLASHING BEACON BULBS

TO: CESSNA ZONES, DISTRIBUTORS, CPC'S AND ALL CESSNA DEALERS

A recent improvement has been made to the filament in the flashing beacon bulbs on models 150 thru Crusader, Skymaster and Pressurized Skymaster aircraft, to improve the bulb service life.

New bulbs with the improved filament (part number CI7312-1) are available from the Cessna Supply Division at the suggested list prices of $59.30 (A) ea.

Although the part number remains unchanged, the improved bulbs can be readily identified by a red four digit date code of 4814 or higher and/or a yellow single digit number of 5 or higher.
